

Waiting for State funding?

FINALLY...it's your turn!

The Florida Department of Environmental Protection (FDEP) recently issued written notification of the Site Characterization Screening (SCS) initiative, effectively lowering the scoring threshold for eligible properties like yours.

ACT NOW!

- * Priority scoring hasn't been this low in years.
- * FDEP funding is limited based on priority scores and project approval priority is first-come, first-served.
- * Make the most of the time and money available to you. Designate the right contractor BEFORE work begins.
